

AGENDA

ADA COMPLIANCE COMMITTEE

September 25, 2019 / 4pm at MUC

- Moment of Silence
- Accept Agenda as presented/changes
- Approval of minutes for August 18, 2019

OLD BUSINESS / UPDATES:

- Sidewalk survey:
 - Superintendent Dave Bromwell confirmed that he passed down the message to his guidance counselors, but we have not received any kids names or list of interested students yet
 - Scott and Herve met with Anthony Thomas on Sept. 24, to review the GIS App. and get students from DCTC involved
- Cambridge Showcase:
 - Patti, Herve and Tom manned the table on High Street on Sunday Sept. 22. Good number of visitors, some in wheelchairs.
 - Feedback was:
 1. Several folks wanted to know if we had a web page or Facebook site to get more information.
 2. Everyone likes the idea of sidewalk repairs, but do not understand why the city does not take care of the repairs.
 3. A lot of folks do not know what the acronym ADA stands for, so we should probably get another banner for the Fair spelling that out.
 4. An autistic young woman stopped by and was wondering what we could do about brightness and high-pitched sounds in various businesses. Apparently, this is very disturbing to some folks.

NEW BUSINESS:

- ADA Awareness Fair:
 - Jerry to provide badges for ADA Committee members; Herve to print names with logo
 - Chairs, porto-potties, tent, banner, story board, handouts are all ready
 - Chamber of Commerce was given an event description to be placed on their website (on 09-24)
 - Entrance tickets will NOT be sold (discuss one or 2 per individual)

- Donations to the ADA can only be in nature, no monetary donations accepted
- To do list:
 - Contact the press / media to have them come to the Fair (Amy Lu & Rebecca, both WBOC, at Channel 16 & 47)
 - Contact the Mayor & City Manager to remind them, see if they will attend (and speak)
 - Herve to place a News Flash on the city website
 - **Define the timeline** of the Fair's events (entertainment, music, speeches)
 - **Distribute roles** per Committee member for the event

ROUND ROBIN:

Each member brings a topic of conversation related to ADA issues
