SUBJECT: Ordinance No. 1090 An Ordinance of the Commissioners of Cambridge, Maryland, to Amend the Permitted Land Use Table #2 of the Unified Development Code to Permit Residential and Commercial Mixed Use Development in a "Side by Side" Configuration in the Downtown Waterfront Development District, "Maryland Avenue Gateway" Sub-District

Recommendation: That Council

- A. Introduce Ordinance No. 1090 by reading of title only; and
- B. Schedule November 28, 2016 for second reading, public hearing and adoption of Ordinance No. 1090.

Discussion: The DWDD consist of six sub-districts that apply to the downtown portion of the City. The sub-districts are Core, General, Civic, Center, Neighborhood and the Maryland Avenue Gateway. It came to staff's attention that there is a very limited number of properties in the Maryland Avenue Gateway subzone of the DWDD that may have a "side by side" configuration of residential and commercial uses housed in one building. The "side by side" configuration is when the commercial use occupies one half of the building and residential use occupies the other half of the building. The current definition for mixed use allows for commercial on the ground level and residential above. This above / below configuration of mixed use development is the more common and is applied in all the other parts of the Downtown-Waterfront Development District (DWDD) with commercial designations.

The Maryland Avenue Gateway district is a unique neighborhood with a more residential character. The UDC states; *"The regulations are intended to protect the integrity of the historic built environment while allowing a mix of compatible land use activities."* Staff believes by providing some flexibility for the mixed use configuration will help further this goal.

This text amendment will modify the Permitted Land Use Table #2 by allowing this configuration on non-waterfront properties with a Special Exception.

Fiscal Impact: None
