Everyone agreed to use the end of October as our target delivery date and to reach that goal we should have weekly meetings with “homework” done in between. Tentatively, Thursdays at 6 pm was agreed, but will be confirmed at the Sept. 14<sup>th</sup> meeting once everyone has a chance to review their schedules. Meetings should be confined to 1 hour (e.g., 6 -7 PM)

Discussed materials previously distributed at a City Council Work session. Clarified data and objectives.

Requested City staff to provide a map that details block demographics for blocks that are on the borders of the existing wards and distribute it in advance of the next meeting.

Meeting was adjourned at 7:05 PM.
