Dear City Council:

Increased demand for services and increased enrollment has caused a deficit in our operating budget for 2019 service year. As we move into 2020, we are seeking financial support for New Beginnings Youth and Family Services in the amount of \$10,000. This funding will assist in paying for increased expenses caused by increased enrollment, additional staff, supplies, and materials.

Unfortunately, without additional funding, programs will be reduced or eliminated. I hope that you are able to consider this one time request to support our after school program through June 2020.

Sincerely

Theresa D. Stafford, Ed.D.  
Executive Director
