

Leonards Lane Community Park

Community Meeting

March 14, 2023

Council Chambers 6:00 pm

305 Gay Street

Come and participate in a community meeting to discuss some designs for the neighborhood park on the City owned property.

The property has special ecological properties that will make this an environmentally educational space along with some active/passive uses.

The design team will have some design ideas that you can mix and match to create a very distinctive place for our residents to enjoy.
