

Emergency Water Service Interruption

Thursday June 13, 2024, and Friday June 14, 2024

The following areas may be affected:

Somerset Ave: School St to Hambrooks Blvd

Hambrooks Blvd: Talbot Ave to Pinks Pond

Hambrooks Blvd: Glasgow St to Bellevue Ave

Between Hambrooks Blvd and Riverside Drive

Other services in the area may be affected, depending on conditions.

Residents should make arrangements to prepare. Outage may last up to 3 hours each day.

When service is restored, you may notice cloudy water due to sediment and air in the lines. This can be cleared up by running your faucets.
