

Notice of Upcoming Roadwork

Beginning Wednesday, November 20th, a City contractor will begin final road restoration related to the West End Area Sewer Replacement Project. Streets where the new sewer lines were installed will be milled and overlaid with new asphalt (see map below). While work is going on, motorists can expect delays and on-street parking may be prohibited during certain hours. Work is expected to take a week to 10 days to complete. Please contact the Office of the City Engineer at (410) 228-1955 if you have any questions or concerns.
