Cambridge Creek Drawbridge to Close for Repairs

The Maryland State Highway Administration (SHA) announced that the drawbridge on Maryland Avenue that goes over Cambridge Creek will undergo repairs. The bridge will be closed to vehicle traffic beginning Nov. 3, 2025; marine and pedestrian traffic will not be impacted by the closure.

According to the Maryland Department of Transportation (MDOT) District Engineer Mark Crampton, the concrete repairs scheduled for the bridge are “necessary in order to prevent settlement of the roadway on the bridge.”

He added that the contractor, PDI Sheetz Construction Corp. of Linthicum, MD, will detour traffic around the project using reflective barrels, temporary traffic signs, and variable message sign boards.

Traffic will be routed around the project on Academy Street, Cedar Street, and Dorchester Avenue. Weather permitting, the work will be completed by Nov. 7, 2025, when the road will reopen for traffic.
